

# The Secret Money Management hack for online roulette + FAQ

# ONLINE ROULETTE FOR LIVING FOREVER

I like the straight forward information with no blah, blah around the important topics.

Let's begin.

## Long term money management strategy

Your target is turn minimum 6 out of 10 deposits to 100% or more profit. This works for me already years quite well.

## Clear example:

Starting general bankroll 4000\$, divide it into  $10 \times 400\$ = 10$  deposits (if you cannot afford it, you can use e.g.  $400\$ = 10 \times 40\$$  and basebet 0,01\$)

Deposit 400\$ to your online casino, play base on your the best tested strategy/system and aim for 800\$.

If reached, withdraw whole amount of 800\$.

Next step is again deposit of 400\$, and the same approach.

# ONLINE ROULETTE FOR LIVING FOREVER

Base on your picked strategy you should be able to finish minimum 6 deposits with 100% profit or more, if not, you should evaluate your strategy & system, try out another App or settings, run more tests etc.

I exclusively share my complete strategies & systems as I believe this is the way how you can successfully compete with online RNG roulette even from long-term perspective.  
Good luck to all and stay strong :)

## Detailed steps:

- 1, Find trustful and audited online roulette casino (e.g. Casino Club, Pokerstars, Unibet, Bwin, ... )
- 2, Develop own strategy and system, ... well if you don't know how and where to start, you might use Apps which I developed for online roulette with many years of experience.  
(available at [www.rouletteforliving.com](http://www.rouletteforliving.com))
- 3, Fine-tune your parameters and money management rules

## StopLoss, Trailing StopLoss

### Stoploss

bankroll 400\$ – 800\$ → no StopLoss defined, you play with the whole amount (All in)

bankroll > 800\$ → you make a withdrawal minimum 800\$ if you e.g. have 1000\$ and go down to 800\$, you stop playing and withdraw 800\$, no exceptions

### Trailing StopLoss

you started with 400\$ bankroll, you reached 2000\$, your StopLoss won't be 800\$, but you will move it to 1500\$. Whenever you reach 100% profit, in our case bankroll is 800\$ + 2\*500\$ you will move your StopLoss.

### Example:

bankroll 400\$, reached profit 800\$, you continue to play and you reached 1800\$ (2\*500\$ + 100% profit), your StopLoss is 1800\$ – 500\$ = 1300\$. Which means, whenever you go down from 1800 to 1300, you stop playing and withdraw 1300\$ = Trailing StopLoss.

# ONLINE ROULETTE FOR LIVING FOREVER

Profit target

Profit target

reach 100% profit or more, if deposit is 400\$, profit target is 800\$.

Shifted profit target

in case that you already reached 100% profit for 3 consecutive deposits, you can play further with 4<sup>th</sup> deposit, once 100% is reached

Example:

from 3 last deposits you created 3\*800\$, now you play 4<sup>th</sup> deposit 400\$, you reached 800\$, do not make a withdrawal, but play further. Once you reach 1300\$, set your StopLoss on 800\$, which means the worst profit from this deposit will be 100%. You can open up your basebet and increase it to 0,30\$ or 0,40\$ because you have already StopLoss in place and you cannot lose your 100% profit + you can potentially create e.g. 500% profit or more from the 4<sup>th</sup> deposit

## How The Typical Journey of Profitable Online Roulette Player Can Look Like

- 1, Budget: 2000\$, 10 times 200\$ bankrolls
- 2, Start 1<sup>st</sup> deposit 200\$, Open online roulette table at your casino, use one of my apps, e.g. RfL XOR App, Portfolio App, Manitou App or Cashcow App
- 3, Use basebet 0,10\$ because of lower starting bankroll
- 4, If you reach after e.g. 10 sessions 400\$ bankroll, make the complete withdrawal of 400\$
- 5, Start with 2<sup>nd</sup> deposit 200\$, same approach with Apps and aim for 400\$
- 6, If you reach 3 times 400\$ in a row, play with 4<sup>th</sup> 200\$ deposit further than 100% profit, use Trailing StopLoss calculation
- 7, Your overall goal is to reach at least 6 times 100% profit out of 10 deposits
- 8, Why?  $6 \times 400\$ = 2400\$$ , your net profit is 1200\$, your potentially lost 4 deposits are 800\$, which means you are in profit 400\$. Normally you lose only 1 – 3 deposits + some deposits were not only 100% in profit, but maybe 300% or even more. Which means you can expect up to 1000\$ profit from 10 deposits round
- 9, If you scale it to 4000\$ budget, it is already 2000\$ profit per 10 deposits round

# ONLINE ROULETTE FOR LIVING FOREVER

## Why 10 deposits?

It's not random number, 10 deposits give you a lot of space for your non-emotional play, having enough deposits for potential failure with one of them.

## Why 100% profit?

I observed that It's relatively easy to reach 100% profit because once you are in this profit you tend to risk more and do not follow rules, therefore I strictly recommend to take whole amount out and start with new deposit at this level of success.

## Why for 4<sup>th</sup> winning deposit in a row risk more?

Because you have already winning 3 deposits streak, you are in plus and if you use Trailing StopLoss, your risk is low, but potential of even 500% profit is open, with low emotional level.

# ONLINE ROULETTE FOR LIVING FOREVER

## Is 30% new 100% Profit Target?

I have introduced new opportunity for Profit Target in my [podcast series](#). It might be quite profitable, let's see example:

- 1, Deposit 400
- 2, You reach 30% profit, now you have bankroll 520
- 3, Withdraw 120 + 100, you will have 300 for next play and out 220
- 4, You risk now only 180 from deposit and still having 300 to play with
- 5, Next round with 300, aim for 60% profit, if reached, your bankroll is 480
- 6, Withdraw 180 and continue to play with 300
- 7, Your risk is now 0 EUR or Dollars as you have back 400 on your paypal, bank account and still 300 left for play.
- 8, Now aim for 100% profit and take it out all if reached, it means if you reach 800 withdraw whole amount and start again.

FAQ

# ONLINE ROULETTE FOR LIVING FOREVER

## Are online casinos fair and can I trust their Random number generators?

... most of the online casinos are fair and RNG is not manipulated. Always check how long is casino on the market and whether they have audit for RNG ... ( trustful casinos base on my experience: Casino Club, Pokerstars, bwin, Unibet)

## Can I find or develop 100% winning system or strategy?

... no. There is no discussion about that, if anyone offers 100% sure or winning system for online roulette it is scam. Never trust that.

## Why people play online roulette if there is not 100% winning system?

...playing online roulette is fun and entertaining. And if you use well prepared system, money management and strategy, it can be most of the time profitable activity.

## Can I use and play Martingale progression on Red/Black?

...yes you can, but you will always lose. Why? Because there are table limits for betting + you will not be satisfied with small winnings e.g. 1\$ risking 1000\$ if it goes wrong + you won't be patient enough to wait for non frequent patterns like 8 times in a row Red/Black.

# ONLINE ROULETTE FOR LIVING FOREVER

## Will casino close my account if I win frequently and make a withdrawal?

... again, if you are in fair casino, it won't happen. Casino knows that time to time you will lose some money. And in general if you are in plus, you will probably promote your success which means new players and new losers for casino because they are not experienced like you. Actually casino is happy to have several frequently winning players = best promotion.

## Can I find or develop any profitable system for online roulette?

... well, you can develop a system, but to become profitable player you need much more than that. The complete set is:

- 1, strong and well tested online roulette system, ideally App tracking the numbers
- 2, sound and meaningful money management (bankroll, basebet, progression, long-term strategy)
- 3, no emotions
- 4, be ready to lose several deposits, it is part of the game
- 5, fair casino with audited RNG

# ONLINE ROULETTE FOR LIVING FOREVER

Can I predict exactly the outcomes of RNG in online casino?

... nope, it is RNG or pseudo RNG, therefore no one can predict exactly the numbers' sequence if RNG is implemented properly. Some casinos use laser beam or CPU frequency to generate initial seed for RNG, therefore you cannot copy the seed and reveal numbers' sequence.

Can I trust Youtube videos where some system sellers show winning money but do not reveal the system or app or strategy? Should I buy from them?

... look, most of the systems' sellers share only successful sessions. Just accept it. He/She might be winning on video, but in reality it was once and other 3 sessions in minus. Fair and open person who offers systems/Apps should provide long term records of his/her live online roulette sessions + reveal long term strategy + money management + system + clearly mention that there is no 100% winning system. If this is not the case, never buy anything from these scammers.

# ONLINE ROULETTE FOR LIVING FOREVER

Can you explain, finally once for all, the house edge values?

... yes, American Roulette House Edge: 5.26% due to double zero, European Roulette House Edge: 2.7% due to single zero, French Roulette House Edge: 1.35% due to half back rule (for even money bets only) – it is mathematical certainty.

Does system or concept of Hot & Cold numbers work?

... nope, it is fallacy, from very short term perspective, it looks that some numbers hit more often and they do. But already in mid-term perspective all numbers will tend to hit the same amount of time because of law of average.

Does online roulette RNG have a memory? What are the odds of spins?

... there is no memory, every spin has every number the exact same odds as the spin before it. On the other hand you won't see numbers' sequence like ... 6, 4, 12, 12, 12, 12, 12, 12, 12, 30, ... because of statistical and probability laws or simply there won't be just one number hitting all the time.

# ONLINE ROULETTE FOR LIVING FOREVER

Are betting systems legal to use in online casinos?

... yes, as long as they're not cheating. You can use any App or system to improve your play and follow money management rules.

Can you share with us, base on your 15+ years of experience, the best settings/limits for casino tables?

... of course, table with limits 0,10\$ – 5000\$, it is not often available, but it is the best. Good enough is also 0,10\$ – 5\$ on one particular number. Later on you will switch to 1\$ – 1000\$ limits if you have bigger bankroll.

# ONLINE ROULETTE FOR LIVING FOREVER

Should I take welcome or other bonuses provided by online casinos? How does it work actually?

... you can always make your own decision, base on my long experience, I don't take any bonus offers from casinos. Why? There are several reasons.

Wagering limit – you have to put on table e.g. 2000\$ to be able to withdraw 50\$ bonus which means you have to play a lot of games, longer time, which means high chance to lose your deposit including bonus.

On top of that bonus has often expiry date, so you are pushed to meet wagering requirements within e.g. 1 month.

If you want to withdraw money and your bonus still needs some wagering amount, you will lose bonus. Simply I recommend to play just with your own money.

Bonus is just a bait from casino to play more aggressively + do not follow your money management rules and potentially lose more.

# ONLINE ROULETTE FOR LIVING FOREVER

## What is your recommended bankroll size?

... it depends on your basebet, I typically play with 400\$ deposit and 0,20\$ basebet, the minimum deposit is for me 300\$ for 0,20\$ basebet. Do not try to break the bank with 50\$ deposit and basebet 0,20\$ or higher. With such a small bankroll you cannot cover any meaningful progression.

## Can I play online roulette for living?

... well, there might be a few guys doing that, but I wouldn't recommend it.

I'd say that the best approach is to combine your work income, business income and online roulette income because you will play roulette as a passion. You won't be under pressure to win today because you need to pay bills.

So you will focus on the game easier and you can create interesting additional income stream for yourself.

# ONLINE ROULETTE FOR LIVING FOREVER

That's pretty much it. Easy, right?

All Apps and packages available on [www.rouletteforliving.com](http://www.rouletteforliving.com)

YouTube channel [VRSEGE](https://www.youtube.com/channel/UCRSEGE) with hundreds of my LIVE sessions in online casinos

Any question? You can catch me anytime with email: [shareschoice@gmail.com](mailto:shareschoice@gmail.com)

Happy playing and see you at the tables! Petr

# ONLINE ROULETTE FOR LIVING FOREVER

## NOTES:

Any App or system for online roulette cannot provide 100% sure or winning system. No one can guarantee you the profit playing online roulette.

In general be ready to lose some of your deposits, on the other hand be ready to withdraw all money if you turn your deposit to 100% or more profit.

All what I share on my webpage, youtube channel and with my Apps come from the real live online roulette experience and knowledge for 16+ years.

Using my Apps, strategies and systems I am happy to compete with online RNG roulette anytime and everyday!

Cheers  
Petr
